Introducing **SANCAL** - couture furniture at 'prêt-à-porter' prices

SANCAL

Our home is our refuge: always ready to welcome us, it is where we feel most comfortable and the place which we are always glad to return to.

The Sancal Home collection offers a carefully-chosen selection of crucial and versatile products which will adapt to one's personality.

Sancal aims to enhance our habitat with enjoyable products, but what is an enjoyable product? This must be a product designed with care; progeny of a venture conceived with dedication. It must be a generous design with respect for other objects in our environment. It must also be a sustainable product with an eye to the future: an ecologically efficient product, lasting and reusable. It is a living piece which may evolve with us and accompany us throughout our life.

Despite having an affordable "ready-to-wear" price tag, there's nothing moderate about Sancal's designs. No stranger to renowned design accolades, Sancal's Tea sofa, designed by José Manuel Ferrero, has recently been awarded the first prize at the BoY awards by the US-based magazine Interior Design.

Living in a more personal and warm environment

Folk sofa

A seat that hugs you: more backrest, softer, more comfort.

Rock tables

Like the musical style from which the name is taken, Rock tables are characterised by a fusion of different contemporary styles.

Characteristic accessories for flexible and casual environments.

Tab side tables

Always with the daring hexagonal quilting and playing with textures and colours, Tea expands its horizons and becomes converted into a chair, a bed and a panel.

Tea bed

Patchwork bed

Inspired by the traditional patchwork quilt, the panels have a dual role: headboard and decorative panel.

A gift for taking a nap in wooden accents and vintage style.

Soul armchair

Making stone and wood come together.

Capas tables

Pauli wall rack

A wall rack of interactive, delicate marquetry work: its shape will be variable, depending on which hanger is used.
